

SPORT FOR INTEGRATION

A quote from Sister Judit

COMING ALONGSIDE

We support various projects in Europe involving different marginalized people groups. The Roma community is one we serve and come alongside local leaders by offering training, English lessons, games, activities, sport specific camps, and bible-based learning.

COMING ALONGSIDE

We serve alongside and support the development of a value-based coaching system introduced to young men in an alternative prison. Within this rigorous program, the young men are allowed to train in sport once a week. We serve with a team who is helping to better develop this training session that not only trains the sport but also trains value lessons the young men will need both in sport and in life.
